

ioSaaS removes pain points for service providers who need to grow and scale.

ioSaaS is a powerful cloud-based white label Softswitch with UCaaS. Remove your barriers and earn up to 85% profit margins.

We know you have choices with white-label hosted PBX, and it seems like all providers in the industry are the same. You probably have several pain points with your current hosted provider that, over the years, you have come to accept as normal. With over 15 years of serving the white-label hosted PBX market, we offer a powerful solution to address the following common pain points.

- **ioSaaS** Provides a Single Login to Manage Everything
- **ioSaaS** Manages the Data Centers
- **ioSaaS** Manages the Platforms
- **ioSaaS** Centralizes your Carrier SIP Trunk
- **ioSaaS** Consolidates Your Carrier SIP Trunks Across All Customers
- **ioSaaS** Provides Full Featured Inbound and Outbound Fax
- **ioSaaS** Does Not Require Purchasing Multiple IP PBX Instances and Licenses
- **ioSaaS** Provides Ultra-Reliable Mobile and Desktop UC Apps

We can stop the pain with the power of consolidation, Our **ioSaaS** offering is designed for UCaaS providers, MSPs, ISPs, broadband providers, IT dealers, and others who want to sell Hosted PBX and UCaaS services utilizing their existing carrier relationships.
